Naturally through its biological function.

EVENSWISS®

UNITED COSMECEUTICALS GMBH

We at United Cosmeceuticals believe that everybody deserves to have naturally healthy and youthful looking skin and hair. Dedicated to this, we make assiduous efforts to provide the most advanced cosmetics based on a deep understanding of the underlying biological mechanisms of skin and hair renewal.

P R O V E N

RETAIL LINE

The skin's self-rejuvenation mechanism inspires our scientific research and helps us to understand the fundamentals of the ageing process. After 30 years of research a worldwide unique formula has been developed: EVENSWISS® with Dermatopoietin®.

B E A U T Y

MECHANISM OF ACTION

WORLD NOVELTY WITH DEPTH-EFFECT: THE NEW EVENSWISS® RANGE

Thanks to the innovative mode of action EVENSWISS® offers a worldwide unique approach in Anti-Ageing care. The patented active ingredient Dermatopoietin® affects the dermal skin layer without penetrating skin by triggering a cascade of reactions which propagates from the surface to the depth of skin. This way it stimulates the natural production of collagen and elastin. The results are clinically proven and visible: skin rejuvenates in the most natural way. EVENSWISS® – PROVEN BEAUTY.

EVENSWISS® WITH DERMATOPOIETIN®

Our technology represents one of the most innovative approaches in skin health and beauty. We have decoded the biochemical processes of skin rejuvenation and transferred this knowledge into our EVENSWISS® skin and hair care products.

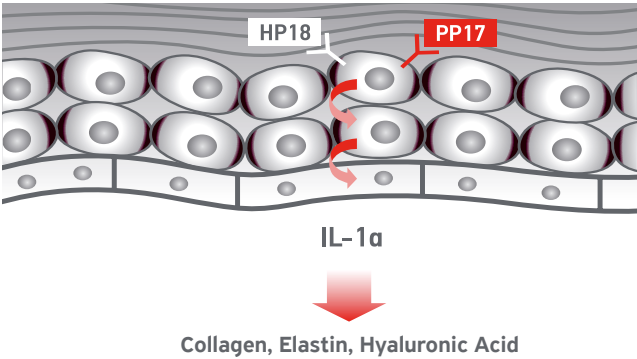

All EVENSWISS® products contain the unique and patented Dermatopoietin® Peptide Complex. Dermatopoietin® is a full equivalent of the human epidermal cytokine interleukin-1 alpha – the natural polypeptide that controls the homeostasis of skin. It affects deep skin structures without penetrating skin by triggering a cascade of reactions which propagates from the surface to the depth of skin. Dermatopoietin® promotes the production of collagen, elastin and several growth factors and thus supports the skin's natural renewal process.

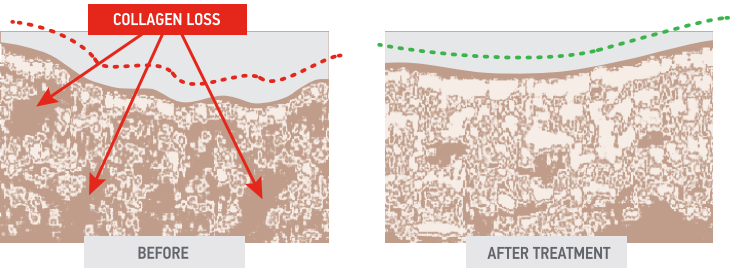

EVENSWISS 
WITH DERMATOPOIETIN®

**DERMATOPOIETIN® APPROACH
TO REJUVENATION OF AGEING SKIN**

With increasing age the skin loses its ability to produce functional collagen which is replaced by fat and proteoglycan deposits leading to a rough skin surface and the typical signs of skin ageing. By replenishing the collagen and improving its function in the dermis Dermatopoietin® reduces the signs of ageing skin and restore its youthful appearance.

53 - year old skin _____

FACE CARE

REJUVENATING SERUM

- boosts collagen
- reduces the appearance of wrinkles
- tightens the skin

e 50ml 1.7 fl.oz.

This innovative product contains the unique Dermatopoietin® Peptide Complex, Soy Isoflavones and PhytoCellTec™ Argan to make your skin firmer by activating collagen production. The anti-aging effect is supported by antioxidants from Malt and Argan oil. The combined action of this formula helps reduce the appearance of wrinkles and leaves your skin with radiant beauty.

REJUVENATING EYE COMPLEX

- reduces the appearance of wrinkles,
- dark circles and puffiness

e 15ml 0.5 fl.oz.

This unique formula contains the Dermatopoietin® Peptide Complex, PhytoCellTec™ Argan, valuable plant oils and antioxidant vitamins to boost skin regeneration, help reduce the appearance of fine lines and wrinkles and fight under-eye bags and dark circles.

BALANCING COMPLEX

NEW

- refines pores and
- regulates sebum activity

e 50ml 1.7 fl.oz.

This innovative and light formula contains the unique Dermatopoietin® Peptide Complex which boosts collagen production and supports the skin's natural renewal process. Niacinamide, Sodium Hyaluronate and Shea Butter act as strong moisturizers. A Vitamin C derivative restores the energy balance and skin radiance. The product is made to counteract the appearance of the first signs of skin aging and hydrate the oily skin.

RICH REGENERATING CREAM

- tightens and nourishes skin
- promotes skin firmness

e 50ml 1.7 fl.oz.

This rich formula contains the unique Dermatopoietin® Peptide Complex and PhytoCellTec™ Argan. It promotes the skin's firmness by reinforcing the collagen synthesis and supporting the skin's natural renewal process. Argan oil with Ceramides and Sodium Hyaluronate help restore the skin barrier function and provide strong and long-lasting hydration.

SUBLIME REVEALING MASK

NEW

- tightens and nourishes skin
- promotes skin firmness

e 50ml 1.7 fl.oz.

The high-quality formula contains the unique Dermatopoietin® Peptide Complex and Tripeptide-5 to boost collagen production and support the skin's natural renewal process. Enriched by Hyaluronic acid and Betaglukan it helps your skin improve moisture, firmness, elasticity and becoming smoother. Formulated for all skin types. The efficacy and safety of the Dermatopoietin® Peptide Complex has been dermatologically proven.

FACE CARE

FACIAL CLEANSING MILK

 a touch of freshness

e 200ml 6.8 fl.oz.

Removes and eliminates make-up and impurities of all kinds. Contains natural plant extracts.

FACIAL TONIC

 a touch of comfort

e 200ml 6.8 fl.oz.

Takes care of your skin with a gentle and moisturizing formula providing comfort and completing the action of EVENSWISS® Facial Cleansing Milk. It smoothes and refreshes the skin of face and neck and keeps its natural moisture balance. Contains natural plant extracts.

PURIFYING CLEANSING FOAM

NEW

- deeply cleanses skin
- refines pores and normalizes
- sebum activity

e 100ml 3.4 fl.oz.

The smooth formula with natural fruit AHA's will improve the moisturization while simultaneously increasing the production of structural components, such as collagen and glycosaminoglycan, as well as reversing cutaneous atrophy. Non-irritant active ingredients with antimicrobial activity active on bacteria, yeasts and mold will normalize the sebaceous hypersecretion. The efficacy and safety of the Dermatopoietin® Peptide Complex have been dermatologically proven.

MOISTURIZING CLEANSING FOAM

NEW

- gentle and moisturizing
- formula to clean the dry skin

e 100ml 3.4 fl.oz.

The smooth formula with moisturizing ingredients such as sweet almond oil and hyaluronic acid brings about a normalization of the water content of the epidermis, this producing an improvement in suppleness and elasticity and at the same time preventing premature ageing of the skin. The efficacy and safety of the Dermatopoietin® Peptide Complex have been dermatologically proven.

SPECIFIC SKIN CARE

EVENTONE SERUM

- ! brightens skintone
- ! targets dark spots
- ! improves radiance

e 50ml 1.7 fl.oz.

This high-quality formula with the unique Dermatopoietin® Peptide Complex and Nonapeptide-1 is enriched by herbal extracts of Narcissus Tazetta, Bearberry and Rumex Occidentalis. It helps your skin improve imperfections and assume a more even tone by reducing dark spots, strengthening skin texture and becoming smoother.

REGENERATING PLASMA

- ! helps skin to recover
- ! after cosmetic treatments
- ! supports self-regeneration

e 100ml 3.4 fl.oz.

The advanced formula containing the unique Dermatopoietin® Peptide Complex in combination with Ceramides, Vitamins A, B5, E, F, Phytosphingosine, Cholesterol and Propolis extract promotes skin regeneration, boosts collagen, restores the lipid barrier and tightens skin. The product with its cooling effect helps skin to ease and to recover faster.

BODY CARE

REJUVENATING DÉCOLLETÉ CREAM

- boosts collagen
- increases elasticity
- tightens skin

€ 50ml 1.7 fl.oz.

This unique product contains the patented Dermatopoietin® Peptide Complex in combination with Milk Thistle extract to firm and tone the skin of the demanding neck, décolleté and arm area. Together with herbal oils and Sorghum Bicolor Stalk Juice it helps restore firmness, elasticity and contour.

HAIR CARE

HAIR PROTECTION SYSTEM SERUM

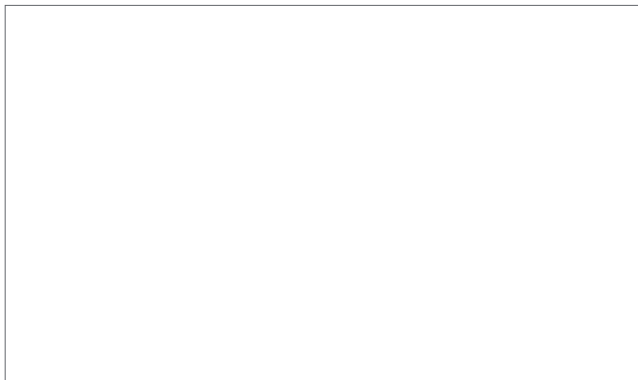

- reduces hair shedding

€ 50ml 1.7 fl.oz.

This aqueous gel contains the unique Dermatopoietin® Peptide Complex which has been shown to inhibit hair shedding, especially during periods of stress. In combination with the EVENSWISS® Booster No9 it makes your hair look healthier, stronger and voluminous.
